

## MARINE CORPS AIR STATION BEAUFORT ENVIRONMENTAL POLICY STATEMENT

**Mission:** Marine Corps Air Station (MCAS) Beaufort is committed to being a leader in environmental stewardship and sustainability, ensuring the longevity of our operations while protecting the well-being of our personnel and the surrounding communities. We strive to preserve natural and cultural resources, remediate any contamination, and continuously improve our Environmental Management System to support operational excellence and environmental responsibility.

### Key Commitments:

- **Pollution Prevention:** We minimize waste and prevent contamination through sustainable practices and reduce hazardous materials.
- **Regulatory Compliance:** MCAS Beaufort adheres to all federal, state, and Marine Corps environmental regulations, continually striving to exceed all Marine Corps Orders and DoD directives.
- **Sustainability:** We promote energy efficiency, water conservation, and reduced emissions to align with our sustainability goals.
- **Risk Management:** We proactively assess and mitigate environmental risks to ensure safe and sustainable operations while protecting our mission.
- **Local Engagement:** We collaborate with local communities and environmental groups to address shared environmental concerns and promote long-term partnerships.

By embedding these principles into daily operations, we foster a culture of environmental awareness, ensuring a sustainable future for MCAS Beaufort and its surrounding communities.
